Dear Dr. Wilford, DVM and Julie White,

It was not that long ago that you were celebrating your 10,000th surgery. And just a bit longer ago that you were moving into your clinic. It has been a pleasure to watch your progress in your surgeries and your visibility in the community.

Many warm congratulations reaching your 20,000th spay/neuter surgery.

I wish you future success and growth with the work you are doing to decrease the numbers of animals entering our shelters in the greater Seattle area.

Congratulations,
